

OTTER IS ADOPTED! NOW CAN YOU HELP FREYA FIND A HOME?

This is Freya, a 6-year old spayed female Akita mix. You may have already heard her story—Freya’s caretaker was diagnosed with terminal cancer in early fall and passed away on October 14th. Freya and her “brother” Otter still live in their caretaker’s home in Green Bay, with friends and relatives taking turns keeping them company.

Otter was recently adopted and will move to his wonderful new home with two canine siblings soon; however, Freya cannot go with him because, as we found out, she is not too keen on making friends with other dogs at this stage in her life.

Freya has a wonderful temperament and is very affectionate with humans, but because of her Akita breed, should not be placed in a home with other dogs, cats or small animals. Also, because she was not raised with small children, a home with older children or no children would be best.

Freya loves to give kisses, go for walks and watch the squirrels in the yard. She is not a destructive chewer or much of a barker. She would make a wonderful addition to the right home.

If you are interested in adopting this sweet girl, or have any questions, please call and leave a message for Moira at (920) 497-0871. Thank you for caring.
